HT 1677

SEMI-PERMANENT MOLD RELEASE AGENT

PRODUCT DESCRIPTION

HT 1677 is a high slip mold release designed for those parts that require easier release due to the geometry of the part. While easier release is achieved there is no warpage if properly applied.

FEATURES AND BENEFITS

- Stable emulsion in water.
- Consistent and clean release. Very little transfer to the molded part.
- Low buildup
- Broad thermal operating window
- Excellent slip properties
- Little or no odor

TYPICAL PRODUCT SPECIFICATIONS

Appearance	Thin White Liquid
Viscosity.....	< 10cPs
Specific Gravity.....	1.0
Weight per gallon (lbs.).....	8.30

SAFETY-DISPOSAL

Emergency and First Aid Procedures

Eye Contact - If splashed into eyes, flush with clean water for 15 minutes or until irritation subsides. If irritation persists, call a physician

Skin Contact - In case of contact, remove contaminated clothing and wash the skin thoroughly with mild soap and water. If irritation persists, call a physician

Ingestion - If ingested, call a physician immediately

Further information regarding health and safety is available upon request. HT 1677 should be stored indoors. Dispose of in accordance with local authorities. Keep from freezing.
