HT Foam Release

Anti-stick coating to release urethane foam

PRODUCT DESCRIPTION

HT Foam Release is an anti-stick coating that prevents polyurethane from sticking to the outside of a cooler, box or any other part that uses polyurethane for insulation or buoyancy. The solvents used in this formulation wet out at room temperature and provide a slick surface that eliminates the possibility of any "shadow" on the part that requires post treatment and cleaning.

FEATURES AND BENEFITS

- Stable solution
- Consistent and clean release
- Works well at room temperature
- Excellent slip properties
- mild odor

TYPICAL PRODUCT SPECIFICATIONS

Appearance..... Clear Liquid
Viscosity..... < 1000cPs
Specific Gravity.....0.793
Weight per gallon (lbs).....6.6 pounds/gallon

SAFETY-DISPOSAL

Emergency and First Aid Procedures

Eye Contact - If splashed into eyes, flush with clean water for 15 minutes and call a physician

Skin Contact - In case of contact, remove contaminated clothing and wash the skin thoroughly with mild soap and water. If irritation persists, call a physician

Ingestion - If ingested, call a physician immediately

Further information regarding health and safety is available upon request.

HT Foam Release should be stored indoors. Dispose of in accordance with local authorities.
